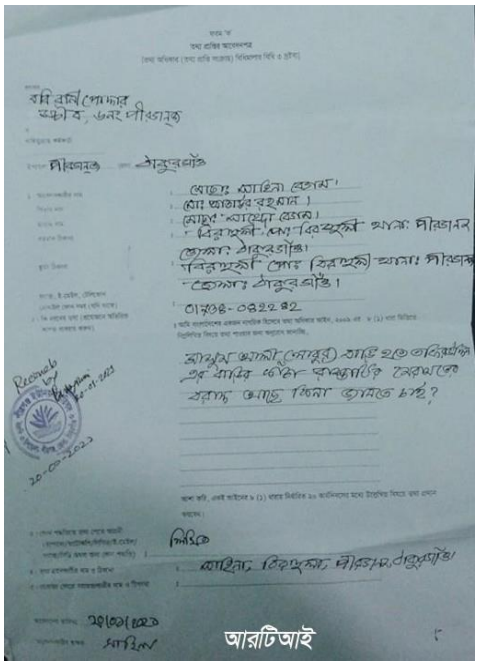
Road repairs through RTI


97 families live in Birhali village of Pirganj union in Pirganj upazila. Most of the roads in the area are suitable for commuting. However, the 150-meter road from Masum Ali's house in the village to Tafir Uddin's house is in a dilapidated condition, causing problems for people in the area, especially during the monsoon season, which is extreme. The matter is discussed among the CSO members and they plan to resolve it. Since they can learn about RTI through monthly meetings and RTI training and realize that RTI is a great tool for realizing rights. In this context, Birhali CSO member Ms. Shahina Begum on 20 January 2021 made an application to the Pirganj Union Parishad under the Information Act to find out whether there was any allocation for the road. In response to this request, the road was repaired by dropping 80 trolleys of soil from the Union Parishad within the next twenty days. Nowadays this road has become navigable and the acceptance of CSO members in the area has increased and people have come to realize the importance and necessity of the Right to Information Act.
